

appear with an important role of participating in surveillance that the traditional some special the fair and place in the workshop Marratxi international service of colleagues lot of fun

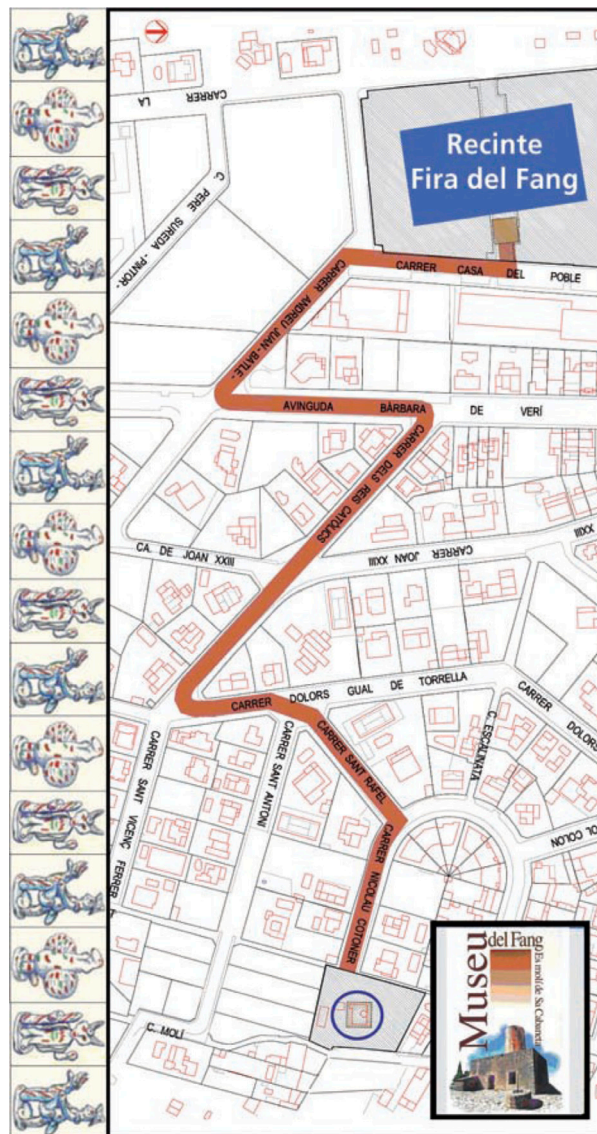

This edition of the fair is dedicated to the person of Ramon Llull, in memory of the 7th centenary of his death, celebrating the pottery of his epoch as central theme. One of the new council's priority acts is, and will ever be, the dynamic sampling of the municipality's economy, supporting and multiplying arts and crafts of ceramics. An example of this new impetus is purchasing the pottery of " Olleria de Ca'n Palou", which will be the future "Museo del Fang" (ceramic museum) and will be at the same time an interpretation center. Another example of the commitment to pottery and ceramics by the council is supporting the local ceramic's school, the only existing public institution of this kind, and we like to take the opportunity to congratulate for celebrating its 25th anniversary.

This year we went the extra mile to let the “Fira del Fang” appear with new power in the calendar to present itself again as an important meeting point. We were able to maintain the number of participants, and even we created a committee to keep under surveillance the quality of the exhibited products, to make sure that the “Fira” will be always reference having class. Combining traditional elements and conventional stands the fair will show some specials going for new experience. I want to invite you to visit the fair and a big number of parallel events which are going to take place in the museum of ceramics and at Escorxador of Marratxí.

There will be workshops for children, potter's tales, raku workshops, typical folkloristic dance groups, temporary music, the Marratxí Big Band, an exhibition of selected pieces of the international biennales, and a skill event with clay.

To make enjoying of all these events easier we offer the service of a touristic train and a bus shuttle. I as the mayor and my colleagues of the town council wish you a pleasant stay at the fair and lot of fun with the entertaining program. Enjoy the "Fira del Fang",

Joan Francesc Canyelles i Garau  
Mayor of Marratxí.
